Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4 and 7-10 are rejected under 35 U.S.C. § 102(b) as being anticipated by Hung 5,755,099 or Hung 6,199,379. Each shows an annular in-flow chamber (e.g. Hung 5,755,099, 1) and a central in-flow chamber (e.g. Hung 5,755,099, 41) connected to an input cylinder (e.g. Hung 5,755,099, 3), by parallel flow lines (e.g. Hung 5,755,099, having valves B, A2, respectively).

Conclusion

Claims 2, 3, 5 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hung 2003/0136125 refers to a speed shifting cylinder.
